📍 No.400, Old Negombo Road, Ja ela, 11350 Ja ela

Profile

A motivated and results-driven Computer Science undergraduate with a solid foundation in software development and project management. Skilled in front-end and back-end technologies, including Flutter, Laravel, and SQL. Experienced in developing efficient, scalable, and user-friendly solutions, with expertise in Agile methodologies, API integration, and database management. Passionate about leveraging technology to solve challenges and eager to grow in software engineering and project management roles.

Employment

Aug 2023 - Jan 2024

Junior Developer

eLogic Lanka Pvt Ltd

- Developed dynamic dashboards and reports using PHP and JavaScript, enabling actionable insights.
- Optimized database management with phpMyAdmin for high performance and seamless integration.
- Collaborated with cross-functional teams, ensuring on-time delivery of client projects.

Projects

Quick Park Mobile Application

- Created a parking slot reservation app using Flutter (front-end) and Laravel (back-end).
- Integrated backend APIs with SQLite for real-time updates, enhancing user experience and booking efficiency.

Eco Explore: Tourism Booking Application

- Designed a tourism booking app using Android Studio and Laravel.
- Focused on efficient backend systems to streamline user interactions and improve usability.

Stock Management System

- Built an inventory management system with C#, .NET Framework, and SQL Server.
- Included features like inventory tracking, user authentication, and reporting.

Car Park System Reports

- Developed interactive reporting solutions with PHP and JavaScript to support data-driven decision-making.

Turtle Hatchery Website

- Designed a responsive and visually engaging website using HTML and CSS.

Education

BSc (Hons) in Computer Science Staffordshire
University, UK

Sep 2023 - Jun 2026

General Foundation Program

Jun 2022

Asia Pacific Institute of Information Technology

AS Level

Jun 2021

Cambridge

GCE O/L

Jun 2019
